

Adherium Exhibiting at 2022 American Thoracic Society International Conference (ATS)

Melbourne, Australia – 13 May 2022: Adherium Limited (ASX: ADR), a leader in respiratory eHealth, remote monitoring and data management solutions is pleased to announce it will be exhibiting at ATS 2022 in San Francisco on 15-18 May in Booth #2109 with Perigon Health 360 our conference co-sponsor.

Focusing on remote patient monitoring in the USA, our number one target market for generating meaningful revenue, Adherium's full range of Hailie® digital sensors along with Perigon's Medesto medication platform will be on display for the over 10,000 healthcare professionals expected to attend.

The American Thoracic Society International Conference, one of the most innovative respiratory health meetings globally, showcases the latest advances and discoveries in respiratory science, patient care, and global public health. Doctors and allied medical professionals come together to learn about and present the latest advances in the rapidly evolving fields of pulmonary medicine, critical care, and sleep.

Perigon's Medesto platform connects digital medication dispensing devices, medical records and digital physiological devices to provide a comprehensive view of patient health, behavior and risk profile. Adherium's Hailie sensor technology and cloud-based data platform enables Perigon's clinical team to optimally manage patients with difficult-to-treat, severe asthma and COPD, while reducing direct and indirect healthcare costs.

About Adherium (ASX: ADR)

Adherium is a provider of integrated digital health solutions and a worldwide leader in connected respiratory medical devices, with more than 180,000 sold globally. Adherium's Hailie® platform solution provides clinicians, healthcare providers and patients access to remotely monitor medication usage parameters and adherence, supporting reimbursement for qualifying patient management.

The Hailie® solution includes a suite of integration tools to enable the capture and sharing of health data via mobile and desktop apps, Software Development Kit (SDK) and Application Programming Interface (API) integration tools, and Adherium's own broad range of sensors connected to respiratory medications. Adherium's Hailie® solution is designed to provide visibility to healthcare providers of medication use history to better understand patterns in patient respiratory disease.
